TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL

Backend & APIs: Node.js, Express.js, REST APIs, MongoDB, MySQL, PostgreSQL

Frontend: React.js, Redux, Tailwind CSS

Data & Cloud: PySpark, Databricks, Azure, AWS EC2, ETL Pipelines

Developer Tools: Git, GitHub, GitLab, Postman, Docker

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

EXPERIENCE

Associate Engineer Trainee

Feb 2026 – Present

Nagarro

- Designed and developed **25+ REST API endpoints** powering core features of a production **MERN-stack** application, containerized with **Docker**, handling frontend-backend integration end-to-end.
- Engineered **PySpark ETL pipelines** on **Databricks** and **Azure** to process and transform data for downstream analytics and reporting workflows.

Software Engineer Intern

Aug 2025 – Jan 2026

4 Way Technologies

- Built the **Admin Portal** and chatbot-creation workflows for a Celebrity AI Chatbot Platform, implementing real-time chat features and reducing manual setup time by **50%**.
- Configured **Logto Authentication** and integrated **25+ REST APIs**, collaborating closely with Backend, DevOps, and SEO teams to ensure seamless deployment and secure data flow.
- Implemented **Localization** across 8+ languages, collaborating with the AI/ML team on locale-based content adaptation for multi-region support.
- Optimized performance using **lazy loading**, **debouncing**, and **Sentry** monitoring, reducing API calls by **40%+** and page load time by **25%+**.

PROJECTS

DevMatch - Social Media for Developers | *React.js, Node.js, Express.js, MongoDB, Socket.io*

- Architected a **swipe-based** developer-networking platform for users based on shared skills and interests, using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Implemented **real-time chat** via **Socket.IO** for instant messaging between matched users, and integrated a sandboxed **Razorpay** payment flow for a premium-features tier.
- Designed **20+ REST API endpoints** for user profiles, matching, and messaging with lazy loading to reduce redundant requests, and deployed the full application on **AWS EC2** for a live, publicly accessible production environment.

Career Pilot | *React.js, Express.js, Node.js, MongoDB*

- Developed an AI-powered career management platform using **Google Gemini 2.5 Flash**, enabling users to generate ATS-friendly resumes, professional summaries, and project descriptions through prompt-engineered workflows.
- Integrated Gemini-based content generation to dynamically create MCQ assessments, interview preparation material, and personalized career guidance.
- Implemented a job-tracking pipeline ingesting **1,000+ job listings via the LinkedIn API**, with application tracking, PDF resume export, and an analytics dashboard.

EDUCATION

Guru Gobind Singh Indraprastha University

2022 – 2026

Bachelor of Technology in Computer Science Engineering; CGPA: 8.1/10

New Delhi, India

ACHIEVEMENTS

- Solved **450+ DSA problems** (including **270+ Medium**, **60+ Hard**) across **LeetCode** and **GeeksforGeeks**.
